SELECTMEN'S REPORT.

The Selectmen would respectfully present the foregoing report of the expenditures for the last financial year—those that belong especially to their department being in detail. It will be apparent, by an examination of the disbursements, that the town laid an unusual burden upon their Selectmen the last year. In addition to their usual duties, they have had a supervision of the highways and bridges, the construction of a bridge over the railroad at Highland Station, and, with the Chief Engineer, the erection of a new engine house. All this work has been completed within the appropriations voted by the town.

The accommodations for the Steamer and Hook and Ladder Companies give general satisfaction. The Selectmen have occupied their rooms in the second story since February 1st, and find them quite convenient and suitable for their purpose. The important papers belonging to the town are now protected in the fire-proof vault, constructed for that purpose, with ample space for the accumulations of many years to come. The lock-up, in the basement, has been furnished with the necessary furniture, and a small stove for warming the cells in very cold weather, or if the condition of any one confined there should require it.

The improvement of the common, with the money at our disposal, presented a somewhat difficult problem. We agreed that it would be unwise to attempt to spread the appropriation, so to speak, over the whole of the common. The work was mostly done on that part lying easterly of Main street, with the intention of making the improvement of as permanent a nature as possible. We hope what has been done will meet with the approval of the town, and that another portion of the common may soon be redeemed from its present unsightly condition.

A substantial bridge has been constructed across the railroad, connecting Mineral street, at a very reasonable cost to the town. While it is not so satisfactory, in all respects, as a more expensive one would have been, it can be readily improved by grading up the approaches at any time the town sees fit to do so, without the loss of any of the work already done.

By a vote of the town, the claim of Gilman D. Kingman, for damages, was referred to the Selectmen for settlement. We have been unable to agree with Mr. Kingman, and he has petitioned to have the damages assessed by a jury.

In the matter of the claim against the city of Malden, for supplies furnished Sarah L. Penney, suit has been commenced to recover the same, and is now pending.

We would present the following list of appropriations for your consideration :

For support of poor.....	\$3,000 00
Salaries of town officers.....	2,000 00
Military aid.....	1,500 00
Street lights	800 00
Printing.....	250 00
Abatement of taxes.....	300 00
Town office.....	100 00
Miscellaneous expenses.....	350 00
Highways and bridges.....	3,000 00
Removing snow.....	400 00

Report of the Board of Engineers.

TO THE BOARD OF SELECTMEN OF READING :

During the past year our department has responded to the following alarms :

April 12th, 1883, alarm caused by the partial burning of a house, owned by J. Fullerton and occupied by T. T. Briggs, corner of Pleasant and John streets. Loss, \$767. Insured for \$3,000. Origin of fire unknown.

June 18th, 1883, Weston's Block on Haven street and a cottage on Chute street were totally destroyed by fire. The buildings were owned by the Reading Savings Bank, and their loss on buildings is estimated at \$4,500 ; insured for \$3,700. Seth Bessey's loss on meat market and household goods estimated at \$3,500 ; insured for \$2,150. M. A. Stone's loss on grocery stock estimated at \$2,300 ; insured for \$2,000. W. H. Twombly's loss on printing office estimated at \$3,500 ; insured for \$3,050. At the same fire J. B. Weston's house was damaged to the amount of \$350 ; insured for \$1,400. Cause of fire thought to be incendiary.

Sept. 4th, 1883. In response to a request from the Fire Wards of North Reading, a portion of our department repaired to that place, and aided in subduing an extensive fire in the woods, which was burning over a large area of woodland ; and, although the engine was useless, on account of the lack of water, the department succeeded, with the aid of the Johnson pumps, in saving a large amount of cordwood, part of which belonged to citizens of Reading. As a token of their appreciation, the citizens of North Reading presented our firemen with the sum of \$25, which was divided among the men.

Sept. 6th, 1883. an alarm called the department to a fire in the swamp between Reading and Wakefield. No damage.

Nov. 28th, 1883. An alarm, caused by the burning of a dwelling owned by Noble Bunker, near Pearl street. Owing to the lack of

water, the building was totally destroyed. Loss estimated at \$200; insured for \$500; amount paid \$250. Cause of fire thought to be incendiary.

Dec. 16th, 1883, a slight fire called the department to the house owned by Frederick Miller, on the corner of Spring and Orange sts. Damage nominal. Origin of fire, accidental.

Jan. 22d, 1884, the house of E. C. Nichols, on Main street, was partially destroyed by fire. Loss estimated at \$1,800; insurance on house, millinery stock, and household goods, \$3,600. Had the department been less prompt, or the steamer been less efficient, the town would have suffered a great loss from this fire.

Total number of alarms, 7; total loss, \$16,917; total amount of insurance, \$19,468; amount of insurance paid, \$13,785.

During the past year additional apparatus has been added to the department—consisting of one third-size Button steam fire engine, one horse hose carriage, 1050 feet of cotton rubber-lined steamer hose, and twelve Johnson pumps. With these additions, in connection with the Eagle and Hancock engines, and the Hook and Ladder truck, we feel that the town has a department that can successfully cope with and prevent any extensive fire that is likely to occur at present, provided an additional supply of water is furnished. This one great essential is lacking to make the department a success, as the steamer has a pumping capacity of 500 gallons of water per minute, and, although we have 24 wells and cisterns in town for fire purposes, and only two out of that number could furnish a sufficient supply of water for the steamer much over one hours' time; therefore, if the town does not soon intend to introduce water for domestic and fire purposes, the voters will at once see the necessity for a better supply of water for fire purposes. The well at the corner of Green and Elliot streets has been sunk to the depth of sixteen and one-half feet, and is fifteen feet in diameter, and at the present time contains fourteen feet of water; but we are sorry to announce that, owing to the quicksand and caving of the sides, we were obliged to overrun the appropriation. The cistern on the corner of Pearl and Charles streets has been completed and is fifteen feet deep by fifteen feet in diameter, and is full of water.

We would report that we have about 3,000 feet of hose, of which 2,000 feet is old leather hose, and has been in service eleven years,

and although it may be used by hand-engines a year or more, it is not reliable. The steamer is capable of doing effective fire service through more than 2,000 feet of hose, yet we have but 1050 that will stand the pressure from the steamer. Consequently, we feel it our duty to call the attention of the citizens to these facts, for their consideration and action.

Complaints have been made to us that, on several occasions, after a fire is under control, persons will enter a building and needlessly destroy property, by taking out windows, doors, blinds, mantle-pieces, and needlessly damaging goods by removal; and it has been suggested that a sort of a volunteer protective brigade be formed, to act in conjunction with the engineers, to protect property from needless damage.

The expenses of the department during the year were as follows :

Paid Henry Orr, services as steward to Hook and Ladder Company.....	\$5 00
William L. Crowe, services as engineer to May 1, 1883.....	12 00
C. K. Gleason, services as steward to May 1, 1883.....	60 00
George H. Parker, services as engineer to May 1, 1883	17 00
A. S. Richardson, services as steward to May 1, 1883.....	49 00
Chas. H. Lang, services as chief engineer to Feb. 1, 1883.....	18 75
Wm. L. Crowe, oiling hose.....	8 00
D. P. Babb, watching fire and drawing coal.....	3 00
Howard Patent Brush Co., repairs on Eagle engine	4 50
Members of Fire Department, services to May 1, 1883	1,020 17
W. H. Turner, oil for hose	10 00
W. Bancroft, covering wells and repairs	19 48
E. C. Nichols, services as engineer and labor	15 00
<i>Amount carried forward,</i>	<u>\$1,241 90</u>

<i>Amount brought forward,</i>	\$1,241 90
H. M. Sawyer, oil suits for firemen	66 00
W. Bancroft, services as engineer to May 1, 1883.....	12 00
P. McCall, straps and belts.....	12 00
F. B. Cummings. services as steward ..	22 50
A. S. Richardson, labor on Hancock engine	8 20
John S. Judkins, watching fire, Haven street.....	2 00
Hunneman & Co., repairing hose.....	18 00
Samuel Brown, ladder and repairing ladders	10 05
Howard Patent Metallic Brush Co., labor and waste.....	3 80
H. A. Trull, labor on steamer.....	17 65
C. H. Stinchfield, labor od steamer	17 05
Parker & Stone, sundries.....	43 89
R. C. Totten, repairs on Eagle engine..	3 00
E. B. Eames, drawing engines to fire...	10 00
M. E. Nichols, setting glass	1 84
Albert J. Bancroft, services as steward to Eagle Engine Co.	3 00
Albert J. Bancroft, lumber and labor ..	8 63
Everett Parker, labor.....	1 25
Wm. M. Titus, stovepipe and labor....	8 38
American Fire Hose Mfg. Co., washers	1 62
H. A. Trull, valves and waste	1 99
George E. Manning, drawing Hook and Ladder to fire.....	3 00
Wm. E. Moulton, filling cistern and re- sponding to alarm of fire	17 00
Wm. LaClair, removing snow from cistern.....	1 00
Wendell Bancroft, coal	36 37
Wm. L. Crow, removing snow from cisterns	12 92
<i>Amount carried forward,</i>	<hr/> \$1,585 04

<i>Amount brought forward,</i>	\$1,585 04	
J. C. Gleason, coal.....	3 50	
Geo. E. Lang, express on hose.....	5 30	
T. Littlefield, labor on stovepipes	2 00	
M. A. Stone, sundries	46	
Cummings' Express	4 05	
G. W. Atkinson, sundries	3 90	
Henry Stock, watching fire	2 00	
Albert James, removing snow from cisterns	1 00	
Garfield & Co., painting	17 40	
John A. Blunt, repairs on Eagle engine	4 25	
	<hr/>	\$1,628 90
Appropriation	1,700 00	
	<hr/>	
Unexpended.....		\$71 10

We would recommend the following appropriations for the ensuing year :

For paying Eagle Engine Co., 40 men.....	\$480 00
Steward do.....	48 00
Incidentals, do.....	100 00
Hancock Engine Co., 40 men	480 00
Steward do.....	48 00
Incidentals do.....	100 00
Hook & Ladder Co., 16 men.....	182 00
Incidentals do.....	60 00
Steamer Company, 13 men	156 00
Engineer and fireman, do., 2 men..	192 00
Coal for steamer	90 00
Horses for do.....	100 00
Incidentals for do.....	100 00
	<hr/>
	\$2,136 00

All of which is respectfully submitted.

GEORGE H. PARKER, *Chief Engineer.*

WM. L. CROWE,

WENDELL BANCROFT, }

Assistants.

WENDELL BANCROFT, *Clerk.*

READING, *March 14th, 1884.*

REPORT OF THE POLICE.

TO THE BOARD OF SELECTMEN OF THE TOWN OF READING:—

The Police respectfully submit the following report for the year ending March 1, 1884. The force met according to appointment on the 2d of May, 1883, and organized with L. W. Erskine as Chief and J. C. Cook, Clerk.

The Police in entering upon the duties of the year had the sole purpose of seeing that the laws were impartially executed and in this they had the support and cooperation of the Selectmen.

The arrangement of having some member of the force on duty every evening, at places where people are accustomed to congregate, has been continued, and annoyance from that source has been much less.

In the early part of the year Chester C. Richardson resigned and the vacancy was filled by the appointment of Frank E. Brooks, who subsequently resigned, and the vacancy was filled by the appointment of Wm. L. Jones. There has been a lockup built during the year in the basement of the new engine-house on Pleasant street with convenient cells adapted for the purposes required. The officers have been provided with suitable badges, handcuffs, and other implements such as are required to make them effective. The whole number of arrests during the year (28) :

For cruelty to animals.....	1
“ Insanity.....	1
“ Committing nuisance.....	1
“ Night walking.....	1
“ Drunkenness and assault.....	2
“ Disturbing the peace.....	2
“ Violation of town by-laws.....	3

For larceny	4
“ Assault	5
“ Drunkenness.....	8

Three liquor seizures have been made. In two of the cases the parties were found guilty. In the third case, failed to convict. One party was complained of and convicted for keeping a billiard and pool table without a license.

We would recommend that the Town raise and appropriate the sum of five hundred dollars for Police services to be expended under the direction of the Selectmen.

All of which we respectfully submit

L. W. ERSKINE, <i>Chief</i> ,	} Police.
EDWIN BASSETT,	
WM. L. JONES,	
EDWARD B. EAMES,	
J. C. COOK, <i>Clerk</i> .	

READING, March 5. 1884.

Report of Cemetery Committee.

FINANCIAL STATEMENT.

Amount in the hands of the committee March 1st, 1883....	\$92 76

LIBRARY REPORT.

The Trustees of the Public Library respectfully submit the following report:—

FINANCIAL STATEMENT.

Expenses of 1882 (previously unreported) :

Dog tax, 1882, appropriated but not drawn.....	\$187 49
Paid Librarian, for salary	\$134 00
Outstanding bills for books	53 49
	————— \$187 49

The foregoing items of the transactions of last year were not reported in our last annual report, as, owing to the sudden death of the former Secretary of the Board, it was found impossible to close the accounts until after the expiration of the last financial year. They are therefore reported here.

Expenses of 1883 :

Appropriation, 1883	\$400 00
Dog tax, 1883	204 86
	————— \$604 86
Paid Librarian, for salary	\$132 75
rent of room	125 00
re-binding books.....	35 60
insurance policy	18 75
books for circulation	290 36
expressage on books	2 40
	————— \$604 86

Account of fines, etc. :

Received for fines, 1882	\$40 00
for fines, 1883.....	38 85
for cards	6 20
for catalogues	3 75
for waste paper sold.....	55
	————— \$89 35

Paid for printing.....	\$2 75	
for incidentals.....	1 95	
		<hr/>
		\$4 70
Balance.....		<hr/>
		\$84 65

STATISTICS.

Number of volumes bought during year.....	239
Number contributed	11
Total number added	250
Total number in the library.....	4,995
Circulation for the year	15,661

The trustees organized at the beginning of the year by the re-election of Stephen Foster, President, and the choice of H. G. Wadlin, Secretary.

The names of the books added during the year are appended to this report. Besides the number reported as added (250 volumes), a considerable number were purchased to replace volumes already on our catalogue, which had been worn out in circulation. The names of these, having already been published, do not appear here.

The interest in the library continues unabated. To promote its usefulness and to increase its efficiency as an educational institution, there is urgent need of better rooms. Increased shelf-room is imperatively required. A new catalogue should be prepared, which would serve as a guide to those who wish to pursue particular courses of reading, and thus bring into circulation the better class of books which now remain unused upon our shelves, for the reason that it is not known what the library contains. A mere list of names is of little value, compared with a catalogue which gives some idea of the contents of the books, as well as their titles. A better system of book-delivery ought at once to be adopted, so that patrons may be more quickly provided with the books they desire, and not be compelled to wait their turn in a long line of applicants, only to find, when they at last reach the librarian's desk, that the book they wanted was taken out early in the evening.

The need of the reforms we have mentioned has for some time been recognized by the trustees, but the work has been delayed in

the hope that a permanent and convenient room might be secured for the library through the action of the town. Properly to accomplish what we have in view requires the shelves and cases to be numbered, and the books classified, and as this involves a great deal of thought and labor, much of which might be wasted if the library were to be removed after it had been undertaken, it was not deemed best to attempt anything in this direction while a change of location was being discussed. The present room, as has been pointed out in previous reports, is entirely inadequate to the purposes of a library, being low, poorly ventilated, and of an inconvenient shape. As the question of a town building, to contain the library, has now been decided, we desire to bring before the town another plan for meeting our needs.

The room in the Bank Building formerly occupied by the Selectmen, and the small room on the same floor formerly used by the Savings Bank, can be had under lease on favorable terms, and would afford us proper accommodations. The expense for rent would be somewhat increased, but we should be able to make the library more useful to our citizens, and thus derive a better return for the investment the town has made in its establishment. The library ought to be made of the greatest possible use to all, its importance as an educational factor supplementary to the public schools ought to be recognized, and nothing should be left undone fully to develop its resources. To these ends we recommend to the favorable consideration of the town the proposition to remove its location to the Bank Building, as the first step in a series of improvements which the trustees contemplate. These improvements, except the increased expense for rent before mentioned, would not add to the annual cost of the library, but would greatly enhance its usefulness.

The terms of Messrs. Griggs and Barrows expire, leaving two vacancies to be filled at the ensuing meeting of the town.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF READING,

For the Year 1883-4.

REPORT.

The School Committee for the year ending March, 1884, respectfully submit the following report :—

According to the latest available statistics (Report of State Board of Education, January, 1884.) Reading ranks twenty-seventh among the cities and towns of the Commonwealth, and sixteenth among those of Middlesex county in respect to the amount of money appropriated for the education of each child between the ages of five and fifteen years. This shows the liberality of the town in its appropriation of money to its schools as compared with other cities and towns for the year 1882-3. But when Reading is compared with other towns in respect to the percentage of its valuation appropriated to the support of schools it will be seen that it occupies a very different place in the scale. For instance, in this regard, Reading stands one hundred and forty-fourth in the State, 143 towns ranking above and 202 below. In the county its rank is eighteenth, 17 towns being above and 36 below.

In respect to average attendance, Reading, by the same statistics, ranks fifty-first in the State and tenth in the county.

As regards the rank of Reading based on the percentage of its taxable property appropriated for school purposes, and comparative valuation is usually considered a fair measure of comparative ability, the present position of the town is considerably below its own average for the last twenty years, its average rank for that time being one hundred and nineteenth in the State. But, on the other hand, Reading at present appropriates a percentage of its valuation about equivalent to the average

percentage appropriated by the town for the same period of twenty years. It therefore follows that while our appropriations, as compared with our valuation, have not greatly changed, other towns have increased their appropriations so as to outrank us in the comparison. Bearing this in mind, we trust the town will not contemplate any reduction in the amount appropriated for its schools at the present time.

Concerning attendance we need only say, that while liberal appropriations are necessary for maintaining the schools a sufficient length of time during the year for the employment of competent teachers and the provision of proper apparatus and other essentials of school work, nothing contributes more to the success of a school than constant and prompt attendance on the part of each pupil. The record of our schools in this respect has always been an enviable one, and we desire particularly to call the attention of parents to the importance of doing everything in their power to reduce tardiness and absence of pupils to the minimum. It is of course improper to enforce attendance whenever regard for the health of the pupil requires his detention at home, but many pupils fall into careless habits, are not sufficiently impressed with the need of promptness, and are allowed by their parents to remain away from school upon frivolous excuses. The remedy is obvious and should be applied. With these general remarks we now proceed to a presentation of the work of the past year.

ORGANIZATION OF THE COMMITTEE.

Organization was perfected at the first regular meeting by the choice of Horace G. Wadlin, Chairman, and the re-election of Henry G. Kittredge, Secretary. The following Sub-Committees were appointed :—

High School—Messrs. Wadlin and Kittredge.

First Grammar—Mr. Kittredge.

Second Grammar—Mr. Putney.

Third Grammar—Mr. S. E. Parker.

Upper Medium—Mr. E. F. Parker.

Lower Medium—Mr. S. E. Parker.

Upper Primary—Mr. Putney.

Lower Primary—Mr. Wadlin.

Walnut Street Schools—Mr. Kittredge.

Woburn Street Schools—Mr. Bancroft.

Lowell Street School—Mr. E. F. Parker.

Main Street School—Mr. Bancroft.

Haverhill Street School—Mr. S. E. Parker.

On Prudential Affairs—Messrs. E. F. Parker and S. E. Parker.

On Accounts—Mr. E. F. Parker.

On Music—Mr. Putney.

TEACHERS.

Only three changes have been made in our teaching force during the past year. Miss Z. A. Wakefield resigned the position she had long held as teacher of the Haverhill street school, her successor being Miss Olena A. Wakefield of this town. Miss Clara J. Coney, of the Woburn street grammar school, resigned at the close of the summer term, her resignation being caused by her change of residence to Denver, Colorado, where she is now engaged in teaching. The vacancy was filled by the promotion of Miss Mattie Davis, whose efforts in the primary seemed indicative of success in the grammar department. The vacancy in the primary was filled

by the selection of Miss Mary E. Murkland, of Lynn, a normal graduate with some experience in teaching, who came to us highly recommended. Most of our teachers have been with us for several years and are generally to be commended for earnest efforts in behalf of their schools, and for faithful and painstaking service.

DISCIPLINE.

In accordance with the requirements of the statutes truant officers have been appointed by the Committee, whose duty it is to see that the laws relating to truancy and the employment of children are enforced. In but one case of truancy was it found necessary to take extreme measures, and in that instance the pupil was sent to the truant school in Lowell, where he is doing well, and under proper restraint is, we believe, acquiring such habits of order and self-control as will conduce to his well-in life. In one other instance a similar course would have been taken by the Committee had not the offender, through circumstances not necessary to explain here, passed under the guardianship of the State Board of Health, Lunacy and Charity, thus relieving the Committee from responsibility. With but few exceptions the discipline maintained in the schools has been good.

HIGH SCHOOL.

28 pupils entered this school in September, 18 having previously graduated. The present number of pupils is 73. We believe the record of Reading in respect to attendance at the High School to be unexcelled. There are no industrial establishments in town to compete with this school for those who leave the grammar classes, and therefore a large proportion of our pupils enter it, and of these, an unusually large percentage graduate. The attendance has undoubtedly been increased

by the policy of the Committee, which for many years has been to provide such courses of study as seemed best adapted to the majority of the pupils in our own town, rather than to conform to some ideal standard fixed under different local conditions. We believe that the support given the school, and the high estimate placed upon it by our people justifies this policy. If evidence were needed of the good work done in the school none better could be given than the success which has attended its graduates, many of whom are filling positions of trust and responsibility, and the uniformly high rank taken by those who have gone from its classes into the normal schools at Salem and Bridgewater. The principal of the latter has never failed to compliment the applicants for admission to his school who have come from Reading, and in his opinion they are always among those best prepared for entrance. Such results as this speak more effectively for the school than can any words of ours.

The present three years' course was adopted several years ago. It seems to the Committee that with the number of teachers at present employed something might be done for those pupils who desire to remain four years in the school. With this end in view a plan for another year's work is in contemplation, and will be perfected before the beginning of the next school year.

The names of the graduates may be found in the appendix.

MUSIC.

Instruction in music has continued during the year under the able direction of Mr. Henry G. Carey. Mr. Carey's methods have met the approbation of the Committee, and his work is, we believe, thoroughly appreciated and highly valued by the parents.

BUILDINGS.

In obedience to a vote of the town the Walnut street school building was removed during the summer vacation to a lot on

Hopkins street. By vote of the board the school will hereafter be designated "The Chestnut Hill School." The new site, while not above criticism, was in the locality approved by a majority of those residing in the district, and not far away from the old location. The slope of the lot to the west enabled a good cellar to be put under the building at moderate expense. When the surplus gravel is removed, which will be done as fast as it can be used upon the streets, and the grading is completed, its present unsightly appearance will be obviated, and we are confident that the choice of site will then be regretted by but few. The building itself was completely remodeled, two good first-story rooms being obtained, with proper entrances on each side. It was thus rendered much more convenient for the two schools which occupy it, and the primary department is no longer confined to a small and poorly ventilated attic. A full statement of the cost of this, and other routine repairs of the year is appended.

We desire pointedly to call the attention of the town to the condition of the rooms occupied by the Union street primary schools. They are, as is well known, small, poorly ventilated, and totally unfit for the use to which they are put. In their present state they are a disgrace to the town. The front room, especially, occupied by the lower primary, has no adequate clothes room for hanging the cloaks and hats of pupils, and consequently a portion of the school room wall is utilized for this purpose. On a wet day, when the room is heated, the steam arising from drying garments mingled with the impurities resulting from the crowded condition of the room, renders the air so bad as to be injurious to health.

The town ought to build at some time in the near future a four-room school building in the centre district, properly arranged, well lighted and ventilated, and such as other towns in this vicinity provide for their schools. The fact that the Union street building was built many years ago for other pur-

poses, interferes with its adaptation to the educational wants of the present. If, however, the town is not ready to erect a new building some other plan ought to be devised to improve the condition of things, and the best that we can suggest is to raise the John street school building, adding a story underneath to be occupied by the lower primary, and to devote the entire first story of the Union street building to the upper primary, changing the arrangement of rooms therein to conform to its needs. This would afford some relief and could be accomplished without great expense. The matter will come before the town at the ensuing meeting by an article in the warrant.

INSPECTION OF THE SCHOOLS.

During the winter term the High School was visited by Mr. George H. Martin, and all the schools inspected by Mr. John T. Prince, both acting as agents of the State Board of Education.

The work of the teachers was carefully observed, the schools examined and the character of the buildings noted, after which Mr. Prince met the teachers collectively and addressed them upon their work, and offered such criticisms and advice as seemed to be needed.

Early in the coming year it is proposed to secure the services of Mr. Charles M. Carter, of the State Normal Art School, who volunteers to give a series of practical talks to the teachers on methods of teaching drawing.

FREE TEXT-BOOKS.

An important change in the statutes relating to public schools has just been made. For several years by Section 40 of Chapter 48 of the public statutes a town by vote might authorize its school committee to purchase text-books and stationery for use in the public schools, such books to be the property of the town, and to be lent to pupils under such regulations as the school committee might make. What a town by this statute was *permitted* to do, it is now *required* to do by the provisions of the following act just passed :

SECTION 1. The school committee of every city and town shall purchase, at the expense of said city or town, text-books and other school supplies used in the public schools, and said text-books and supplies shall be loaned to the pupils of said public schools free of charge, subject to such rules and regulations as to care and custody as the school committee may prescribe.

SECT. 2. Pupils supplied with text-books at the time of the passage of this act shall not be supplied with similar books by the committee until needed.

SECT. 3. This act shall take effect upon the first day of August, 1884.

To conform to the requirements of this act will demand an appropriation of \$600 to be made by the town and included in the tax levy of the present year.

VACANCIES.

There will be two vacancies in the board to be filled by the town at the ensuing meeting, the terms of Messrs. Putney and Wadlin expiring.

APPROPRIATIONS.

We recommend the same amount to be appropriated for support of schools as was raised last year, viz. \$8,100. We also recommend the same amount as that of last year to be raised for incidentals, viz. \$700, together with the additional sum of \$600 for text-books, making the total appropriation for incidentals of \$1,300.
